

Future Proof Your Data

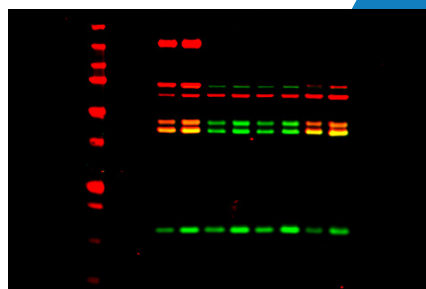

Seminar Featuring Odyssey[®] Instrumentation From LI-COR

Significant Quantitative Protein Detection
and Analysis with LI-COR Instrumentation

When: April 25, 2018, 10:00 AM

Location: Seminarraum, contact Dr. Stefan Stein for
more information (s.stein@gsh.uni-frankfurt.de)

- Are you generating significant, quantitative data that meets publication standards?
- Learn how to identify and eliminate sources of variability to future proof your data.
- Learn about tools, protocols and services that will help you meet even the toughest requirements.
